

Register with Vend

Enter your mobile number at the entry kiosk to open the gate. We will send you a text message with further instructions.

Click the text link. Then, **add** your vehicle and payment info. If validating, **skip** payment if the validation amount will cover the total fare price.

If payment or validation **was added**, the gate will automatically open at exit. If not, follow the prompts on the kiosk screen to pay and leave.

Drive on out! Your validation has been applied and you can seamlessly park at any Vend location in the future.
